Project Experience

Capstone Project - Re:coded Bootcamp
Aug 2023 - Sep 2023

- Transformed a static multiple page application into an interactive user interface using agile project management over the course of 8 weeks.
- Utilized a user-friendly app with Next.js dynamically represent data from Firebase, and used Git, Redux, Framer Motion, i18n and the GitHub interface to work in a virtual and collaborative team environment.
- Utilized debugging best practices and simplified. difficult programming concepts including responsive website development, TailwindCSS layout, Promises, and API requests.
