- English *Professional working proficiency*

About Me

As a web developer, I am passionate about creating innovative and user-friendly websites that enhance people's lives. I am well-versed in various programming languages such as HTML, CSS, and JavaScript, and I'm excited to use these skills to create engaging and effective web experiences that will drive business success. With a strong skill set in problem-solving and communication, I am confident in my ability to work collaboratively with others to achieve shared goals. My proudest accomplishment is completing a coding bootcamp where I developed several projects that demonstrated my proficiency and passion for web development.

Education

Frontend Web Development - Re:Coded
Feb 2020 - Jun 2022

Re:Coded Immersive bootcamps are highly competitive, with a 5% acceptance rate.

- Completing a 4.5-month immersive web development bootcamp, with 300+ hours of curricula and project-based learning
- Technologies: HTML, CSS, JavaScript, React, Next.js, Tailwind, Firebase, Bootstrap
- Working with various development teams to create products across industries.

BSc - Middle East Technical University
Sep 2015 — Jan 2023

- METU is ranked among the top universities in Turkey and has a diverse student body of over 30,000 students. The university offers undergraduate and graduate programs in various fields and has a research-oriented approach to education.

Project Experience

Capstone Project - Re:coded Bootcamp
Sep 2021 - Jun 2022

- This project aimed to develop an interactive and engaging learning app that provides users with a personalized educational experience.

- The app offers a wide range of courses and resources across various subjects, catering to learners of all ages and skill levels. With a focus on interactivity and convenience, this platform will empower individuals to acquire new knowledge, develop skills, and explore their educational interests at their own pace.

- Developed by a team of 3 we employed agile methodologies, we delivered a remarkable final project showcasing our acquired skills and knowledge.

- Technologies used : Next.js , Tailwind CSS, Redux Toolkit, Firebase, Framer Motion
